INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the business-type activities and each major fund of the **West Iron County Sewer Authority**, as of and for the fiscal year ended June 30, 2007, which collectively comprise the Authority's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Board of Trustees, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of the **West Iron County Sewer Authority** at June 30, 2007, and the respective changes in financial position thereof for the fiscal year ended, in conformity with generally accepted accounting principles in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2007, on our consideration of the **West Iron County Sewer Authority's** internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with the report in considering the results of our audit.

The management's discussion and analysis on pages 7 through 15 is not a required part of the basic financial statements but is supplemental information required by the *Governmental Accounting Standards Board* and by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of the inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the **West Iron County Sewer Authority's** basic financial statements. The individual fund financial statements are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The individual fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

WEST IRON COUNTY WASTEWATER TREATMENT PLANT

P.O. BOX 246 . CASPIAN, MI 49915 . (906) 265-5209

The management of the **West Iron County Sewer Authority** provides this narrative overview and analysis of the financial activities of the **West Iron County Sewer Authority** for the year ended June 30, 2007. As readers, you are encouraged to read this discussion and analysis in conjunction with the Authority's financial statement information included in this report.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The financial section of this report includes management's discussion and analysis and the basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the Authority's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements reflect the Authority's functions in the enterprise fund, which is the only fund of the **West Iron County Sewer Authority**. This means that the revenues are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities). There are no governmental activities.

WEST IRON COUNTY WASTEWATER TREATMENT PLANT

P.O. BOX 246 . CASPIAN, MI 49915 . (906) 265-5209

Fund Financial Statements

The Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. In the basic financial statements, the emphasis of the fund financial statements is on major funds. The only fund of the Authority (in addition to the fiduciary fund) is a **proprietary fund**.

Proprietary Funds

Proprietary Funds provide services for which the Authority charges customers a fee. The Authority has only one type of proprietary fund - an enterprise fund. The enterprise fund of the Authority is used to report the same functions as the business-type activities in the government-wide financial statements. The Proprietary Fund is presented separately in both the government-wide financial statements and the fund financial statements and is considered a major fund. Enterprise funds are used to account for operations very similar to business enterprises, where the intent of the governing body is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Notes to the Financial Statements

Notes to the financial statements are included in the basic financial statements, and provide additional information that is essential for a full understanding of the data provided in the government-wide and the fund financial statements.

Supplementary Information

Required supplementary information generally follows the basic financial statements, and includes budgetary comparison schedules for the General Fund and the entity's major special revenue funds as presented in the governmental fund financial statements. Since there are no governmental funds, this section has been omitted.

Government-wide Financial Analysis

In time, net assets of a governmental entity may serve as a useful indicator of the government's financial position. In the case of the Authority, assets exceeded liabilities by \$ 5,880,328 at June 30, 2007.

By far, the largest portion of the Authority's assets (approximately 93%) is held in the form of capital assets (net). These capital assets are used to provide services to citizens and are not available for future spending. It should be also noted that these assets carry related debt of \$2,320,000, representing the 2005 refunding bond issue. At June 30, 2007, the Authority reported \$ 5,221,124 in capital assets net of related debt. And, at June 30, 2007, the Authority had unrestricted net assets of \$ 148,549, which are available to meet the government's ongoing obligations to citizens and creditors, and \$510,655 restricted for payment of debt and related obligations.

Proprietary Funds

The Authority's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

Capital Assets and Debt Administration

Capital Assets

The Authority's investment in capital assets, net of accumulated depreciation, for its business-type activities as of June 30, 2007 is \$ 7,541,124. The investment in capital assets includes land, building, machinery and equipment.

There are no infrastructure assets.

Long-term debt

The Authority's long-term debt consists of Series 2005 Refunding Revenue Bonds, the balance of which is \$ 2,320,000 at June 30, 2007.

2006-2007 Achievements

The **West Iron County Sewer Authority** (WICSA) Wastewater Treatment Plant operated within the parameters of NPDES Permit Number M10043281. WICSA received an S-2 Grant in the amount of \$22,500.00, which it used to hire STS Consultants to evaluate the wastewater treatment plant and project future needs. WICSA's community members continued with sewer improvements and maintenance to reduce I&I, and the wastewater plant itself continued with maintaining all equipment and plant processes.

2007-2008 Goals

WISCA will continue to operate in compliance of NPDES permit M10043281. WICSA's community members will continue with sewer maintenance and improvements to reduce I&I, and the wastewater treatment plant will continue to maintain equipment and plant processes. WICSA hopes to receive a State Revolving Fund loan to update the wastewater treatment plant according to the study completed by STS Consultants.

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2007

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting methods and procedures adopted by the **West Iron County Sewer Authority**, Caspian, Michigan, conform to generally accepted accounting principles as applicable to governmental entities. The following is a summary of the more significant policies:

THE FINANCIAL REPORTING ENTITY

The Authority was organized to provide sewer service to the cities of Iron River, Stambaugh, (now consolidated with the new City of Iron River), Caspian, Gaastra, and a portion of Iron River Township. The first grant applications were filed in 1982. Two members from each participating municipality are appointed by their respective governmental entities to serve on the Board of Trustees of the **West Iron County Sewer Authority**.

In accordance with the provisions of GASB 14, certain other governmental organizations are not considered to be part of the entity for financial reporting purposes.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

THE FINANCIAL REPORTING ENTITY (Continued)

The criteria established by GASB 14 for determining the various governmental organizations to be included in the reporting entity's financial statements include separation of electing governing body and legal status, and fiscal independence. On this basis, there are no discretely presented component units to be included in the reporting entity.

BLENDED COMPONENT UNITS

A blended component unit is a legally separate entity from the local unit, but is so intertwined with the local unit that it is, in substance, the same as the local governmental unit.

A basic strategy of GASB 14 is to present financial information for component units separately from the financial information for the primary government. This is achieved through the discrete presentation method.

WEST IRON COUNTY SEWER AUTHORITY

**NOTES TO THE FINANCIAL STATEMENTS
(CONTINUED)**

JUNE 30, 2007

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BLENDED COMPONENT UNITS (Continued)

However, in the case of blended component units, GASB believes that it would be more appropriate to use the blending method to incorporate the financial information of a component unit into the reporting entity's financial statements. When the blending method is used, transactions and balances of a component unit are merged with similar transactions and balances of the primary government so that there is no way to identify which balances relate to the component unit and which relate to the primary government.

On the basis described above, there are no discretely presented component units, nor are there any blended component units whose financial statements are included in the financial statements of the **West Iron County Sewer Authority**.

JOINT VENTURES

A joint venture is a legal entity or other organization that results from a contractual agreement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial interest or an ongoing financial responsibility.

An ongoing financial responsibility is determined as a participating government's obligation in some manner for debts or the joint venture's existence depends on continued funding by the participating government.

There are no joint ventures to be reported.

JOINTLY GOVERNED ORGANIZATIONS

A jointly governed organization is a multi-governmental arrangement that is governed by representatives from each of the governments that create the organization, but that is not a joint venture because the participants do not retain an ongoing financial interest or responsibility.

There are no jointly governed organizations to be reported.

RELATED ORGANIZATIONS

A related organization is an organization for which a primary government is not financially accountable (because it does not impose will or have a financial benefit or burden relations) even though the primary government appoints a voting majority of the organization's governing board.

BASIS OF PRESENTATION

The Authority follows GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. GASB Statement No. 34 adds the following components to the financial statements:

Management's Discussion and Analysis

A narrative introduction and analytical overview of the government's financial activities. This analysis is similar to the analysis the private sector provides in their annual reports.

Government-wide financial statements

These include financial statements prepared using full accrual accounting for all of the government's activities.

Government-wide financial statements (Continued)

This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Annual accounting also reports all of the revenues and costs of providing services each year, not just those received or paid in the current year or soon thereafter. The government-wide statements include the Statement of Net Assets and the Statement of Program Activities.

The criteria applied for designation as a major fund is as follows:

- 1) Total assets, liabilities, revenues, or expenditures/expenses (excluding extraordinary items) of an individual fund are at least 10% of the corresponding total for a fund type.

- 2) Total assets, liabilities, revenues, or expenditures/expenses (excluding extraordinary items) of an individual fund are at least 5% of the corresponding total for the total of all governmental and enterprise funds combined.

Assets, or other element taken one at a time would have to pass both the 10% test and the 5% test for the fund to be required to be reported as a major fund.

Statement of Net Assets

The Statement of Net Assets displays the financial position of the primary government (government and business-type activities, where applicable).

Statement of Net Assets (Continued)

Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Assets and report depreciation expenses - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government are broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Statement of Program Activities

The statement of program activities reports expenses and revenues in a format that focuses on the cost of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

**GOVERNMENT-WIDE AND FUND FINANCIAL
STATEMENTS**

The basic financial statements include both government-wide (based on the Authority as a whole) and fund financial statements. The reporting model focus is on both the Authority as a whole and the fund financial statement (business-type categories).

Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as business type only. In the government-wide Statement of Net Assets, the business-type activities column (a) is presented, and (b) is reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Both government-wide and fund financial statement presentations provide valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the financial information.

The Authority generally uses restricted assets first for expenses incurred for which both restricted and unrestricted assets are available. The Authority may defer the use of restricted assets based on a review of the specific transaction.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (office and administration, sewer plant, interest, and depreciation) that are otherwise being supported by general government revenues (interest and investment earnings).

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

In the fund financial statements, financial transactions and accounts of the Authority are organized on the basis of funds.

The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

PROPRIETARY FUNDS

Enterprise Funds

These funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises----where the intent of the governing body is that the costs (expenses including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purpose.

For reporting purposes, the Sewer Authority Enterprise Fund is the major fund.

FIDUCIARY FUNDS

These funds are used to account for assets held by the Authority in a trustee capacity or as an agent for other individuals, private organizations, other governmental units and/or other funds. The Authority's Sick Leave Fund is a fiduciary fund.

It is classified as a private-purpose trust fund.

MEASUREMENT FOCUS

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The government-wide statement of net assets, statement of activities, and the proprietary funds are accounted for on a flow of economic resources measurement focus.

The statement of net assets, statement of activities, and financial statements of the Proprietary Fund are presented on the accrual basis of accounting.

Under this method of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

COMPENSATED ABSENCES

Employees earn sick leave benefits at the rate of one day per month, which can accrue to a maximum of 120 days. At separation or retirement, employees are paid out 50% of the unused sick days calculated at the employees' current rate of pay.

At June 30, 2007, the total liability of the Authority based on this 50% payoff rate, plus related costs of FICA is \$ 11,227.

As required by the provisions of GASB 16, estimates have been made to determine the current portion of the liability using historical averages. This is the amount which could reasonably be expected to be used within the next 12 month period. This has been expended in the current period, along with related FICA costs. The balance, or long term portion of the liability, including related FICA expense, is reflected on the Private-Purpose Trust Fund's balance sheet.

ANNUAL PENSION COST

During the fiscal year ended June 30, 2007, the Authority's contributions totaling \$27,165 were made in accordance with the contribution requirement determined by an actuarial valuation of the plan as of December 31, 2006. The employer contribution rate has been determined based on the entry age normal funding method. Under the entry age normal funding method, the total employer contribution is comprised of the normal cost plus the level annual percentage of payroll payment required to amortize the unfunded actuarial accrued liability over 30 years. The employer normal cost is, for each employee, the level percentage of payroll contribution (from entry age to retirement) required to accumulate sufficient assets at the member's retirement to pay for his projected benefit.

NOTE E - RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Authority.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Trustees
West Iron County Sewer Authority
Caspian, Michigan 49915

We have audited the financial statements of the business-type activities and each major fund of the **West Iron County Sewer Authority**, Caspian, Michigan, as of and for the year ended June 30, 2007, which collectively comprise the **West Iron County Sewer Authority**, Caspian, Michigan's basic financial statements and have issued our report thereon dated December 17, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the **West Iron County Sewer Authority**, Caspian, Michigan's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the **West Iron County Sewer Authority**, Caspian, Michigan's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the **West Iron County Sewer Authority**, Caspian, Michigan's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the **West Iron County Sewer Authority**, Caspian, Michigan's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the **West Iron County Sewer Authority**, Caspian, Michigan's financial statements that is more than inconsequential will not be prevented or detected by the **West Iron County Sewer Authority**, Caspian, Michigan's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the **West Iron County Sewer Authority**, Caspian, Michigan's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the **West Iron County Sewer Authority**, Caspian, Michigan's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of management, the audit committee, the Board, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
